Archive is divided into sections:

- **Videos - Sorted by date of upload, and/or capture, where applicable. As such, many videos are a day or two old due to time-differences, not to mention time spent in fora before getting recognition. Selected videos have subtitles, capitalized in filenames on the list.**
- **Files - BAKd PDFs of saved scientific papers & news-articles, JPEGs & PNGs of relevant information. Information & sources are stored in filenames. (Single [random_code] are YT sources - others are stated.) Files are sorted by date of publishing or occurrence.**
- **Links to relevant archived content & sources. Collection began after the outbreak got international recognition, and are preserved as time-lines of events.**

Below are sorted by;

Tip: Expand "PDF"/"MPEG4" in sidebar, and search (Ctrl+F) to easier find relevant files.

Some videos are backed up other places online.
Here is a collection by another user as well.

Relevant info tend to "disappear" too quick these days - any help in keeping them alive is appreciated.
To download, right-click individual files in the sidebar, and press "Save Link As...".

The whole archive is also available for download:

20200327 Dr. Richard Cheng - NY Hospitals use of Vit C is applaudable, but the dosage is too small. [NBbbncTR-3k].mp4 - (DL)

A few highlights:

1. I was made aware that FB Fact Check claims "Shanghai did not officially recommend high-dose IVC for the treatment of Covid-19" (left on the above photo). Let me make it clear that not only Shanghai, but also Guangzhou, Guangdong Province, another major city in China, publicly endorsed high-dose IVC for the treatment of Covid-19. Those who does Fact Check, please be more careful.
2. Medicine in Drug Discovery, of Elsevier, a major scientific

publishing house, published my article of Early and high-dose IVC in the treatment and prevention of Covid-19. https://www.sciencedirect.com/science/article/pii/S2590098620300154 - (pdf)
3. Dr. Anthony Fauci, director of NIAID, NIH openly recognizes the importance of Vit C in the fight against virus. https://www.youtube.com/watch?v=xkyO1DTqoWQ - (archived) - (DL)
4. Dr. Tom Frieden, former CDC chief, recommend Vit D3 in the fight of covid-19. https://www.foxnews.com/opinion/former-cdc-chief-dr-tom-frieden-coronavirus-and-cardiovascular-disease-stopping-a-deadly-duo - (pdf)
5. Finally, it's great to hear that a NY hospital chain begin to recommend high-dose IVC for Covid-19 treatment. But their doses are too small and may not achieve the optimal results that high-dose IVC can offer. Worse, if doses are too small and the IVC treatment doesn't achieve the desired results, it may, again, be interpreted as VC is inefective. As this happened before."

20200406 Spiro Skouras - Henry Kissinger & Bill Gates Call For Mass Vaccination & Global Governance [c4Aps2NPe54].mp4 - (DL)

- *"We are in the middle of the worst global health pandemic of our lives according to the Media, the Government and the United Nations. We are witnessing an unprecedented global lockdown in response to the Coronavirus outbreak known as COVID19.*
- *The global population living in western countries have been taught for more than a generation to live in a constant state of fear ever since 9/11. We have been encouraged to sacrifice our liberty for a false sense of security, being conditioned more and more each day to rely on the state for protection and now many of us find ourselves relying on the state to pay our bills.*
- *Despite the government's budget and deficit continuing to grow exponentially everyday... Some are beginning to see that there may be more to the official story than what we are led to believe. The very few may have seen this coming and are waiting for the next phase of what very well could be another step closer to global governance. The very men and women, the exact same individuals and government agencies, in addition to global institutions who stand to benefit the most, are the ones calling the shots... Welcome to COVID-1984 and the official rollout of the New World*

Order... "

Summaries and Observations

20200213 Update Notification:
Video content leaking out of China increasingly violent:

The outbreak appears to have begun in November 2019 - perhaps as early as October - which means, by observation, February the 13th 2020 - about 3 months into the outbreak - the situation escalated to such a degree, that killing of pets and animals by either burning, dropping them off of buildings, and beating them do death to stop the spread, begun.

The general violence between Chinese citizens, and Police on civilians, also reached a tipping point, and much of the content display not mere symptoms of a "virus epidemic" - rather undertones of historical Nightmares.

I am marking this date for the record, which is also reflected in less and less content leaking out of China; The Chinese Government (CCP) actively arrest citizens who post the actual situation.

To keep this archive of general educational value, I have therefore decided to not upload the worst of these scenarios.

I apologize for this "inconvenience", but hope for understanding on this particular matter.

20200222 Another update for the record:
Increasing number of videos surfacing from China from this date show suicides by hanging and jumping off of buildings. For the reasons stated above, these will not be uploaded.

20200311
Infections in Western countries are on the exponential rise. Italy, Denmark & USA (among others) are in lock-down. Health-

professionals the world over are getting infected. The rise in severity and awareness of peoples in the West is beginning to set in. Most countries are affected.
"(Global) Pandemic" was officially declared by WHO.

20200313-16
Most of the world entering isolation and quarantine beginning today, increasing in scope officially as of Monday the 16th. Most schools, public buildings, non-essential shops and the like are being closed. Public gatherings are increasingly avoided, discouraged, even made illegal and punishable in some areas.

The spread of the virus - and thus information - is now rapid and global, as is information.
The progression and availability of data is faster than I can keep up with - thus, henceforth the archive is updated with selective info that has gained notoriety and I find of importance.

If you have additional info that I have missed, feel free to contact me. Info on the bottom of the page.

Personal note; I've tried to stay neutral in presenting the findings on this page, but am inclined to voice an opinion regarding the unlinked subreddit above:
Mods in this sub are in the other "Censors" subs as well, and frankly, are on a power-trip. They spent the first month banning everyone who disagreed with them, and who dug a little deeper into how this virus actually came to be - before proclaiming it the official sub for entire Reddit in March 2020. Due to lack of any form of oposition, discussions therefore became overwhelmingly one-sided (banned users are unable to respond, and the rest are too afraid to speak their mind).

Their banning-spree is why most of the other subs have been created - anyone pointing these factors out - are usually also banned.
